

# How to Enter an Expiration Date For an ID That Has No Expiration Date

Thu, Dec 29, 2016 [Desktop Program](#)

## Entering an Expiration Date

If a return has no information, simply enter dates that would be valid.

*For example:*

**If an ID does not have a date of issue:** On the bank application, enter a **Date Issued** of a year ago.

**If an ID does not have an expiration date:** On the bank application, enter an **Expiration Date** of a year from now.

These will be permissible dates for the bank application.
